Forthcoming Events

HUDDERSFIELD GEOLOGY GROUP

Sunday 22nd October - Loxley Edge Rocks and Wharnccliffe, Stocksbridge.

Visit to local exposures of quarried and natural Sandstones and Gritstones. Great examples of sedimentary features at micro and macro scale. Meet at 10:00 on Station Road, Deepcar (Just past Lowood Club). Two sites – 1st is the quarry area, a short easy walk from the road. Wharnccliffe is 20 minutes' walk steadily uphill, then downhill all the way home! Come dressed for the weather; hiking boots recommended. Bring sufficient food and drink for up to 3-4 hours. Helmets required for safe access. Led by Gareth Martin. Contact Bob Appleyard on 07889 366560 to confirm.

Saturday 11th November - Hundale Point, near Scarborough

A return visit to the superb exposure at Hundale Point, north of Scarborough. Opportunity to use graphic logs to interpret bedding and sedimentary features. Detective work on local landforms. Non-tidal but exposed rocky foreshore. Easy 10 minutes approach walk and then steep but safe decent to foreshore. Helmets required. As always, dress for the weather. Depart Huddersfield about 0800, tbc Contact Bob Appleyard on 07889 366560 to confirm.

Monday 13th November - The Doggerland mammalian remains

Talk by Phil Murgatroyd Greenhead College Room M18 at 7.15pm
